

# Joint bid procurement for asset teardowns.

"As a project owner, I can collect and evaluate bids for teardown packages to increase the chances of a successful bid on the whole asset".

## USP for Asset Project Owner:

- ◆ Handle multiple asset projects and lead the bidding process
- ◆ Time and cost-efficient procurement of whole assets for teardown
- ◆ Full transparency during every process step

[iata.org/mro-smarthub](https://iata.org/mro-smarthub)

Joint bidding with more than 300 qualified partners

Seamless integration enables access to relevant documentation

Constant transparency during the bidding process

[mrosmarthub@iata.org](mailto:mrosmarthub@iata.org)

"As bidding partners, we have the opportunity to secure the cost-efficient USM most suitable for our business operations".

## USP for Asset Bidding Parties:

- ◆ Increased procurement power and access to suitable material
- ◆ Simple and intuitive bidding process
- ◆ Automated updates on project progress
